**Great Britain**

**The United Kingdom of Great Britain and Northern Ireland** is situated on **the British Isles**.

The United Kingdom consists of four parts: **England, Scotland, Wales and Northern Ireland**.

England, the central part, occupies the most of the island of Great Britain. To the north lies Scotland and to the west the third part of the country, Wales, is situated. The fourth part is called Northern Ireland and is located on the second island.

Each part has its capital. The capital of England is **London**, Wales has **Cardiff**, Scotland has **Edinburgh** and the main city of Northern Ireland is **Belfast**.

Great Britain is a country of forests and plains. There are no high mountains in this country. Scotland is the most mountainous region with the highest peak, **Ben Nevis**. The rivers of Great Britain are not long. The longest rivers are **the Thames** and **the Severn**. The capital of the United Kingdom, London, stands on the banks of the Thames. As the country is surrounded by many seas there are some great ports at the seaside: **London, Glasgow, Plymouth** and others.

Wales is a country of lakes.

Seas and oceans influence the British climate which is not too cold in winter but never hot in summer. Great Britain is a beautiful country with old traditions and good people.
